Choices for Life	22

Client Story

When you're 17 and pregnant, the easier decision would be not to choose life for your baby. But "A" and her boyfriend came to our center, had an ultrasound, heard their baby's heartbeat, and knew that they would parent their child. Please pray for this young couple and their families, as baby is due to arrive this summer.

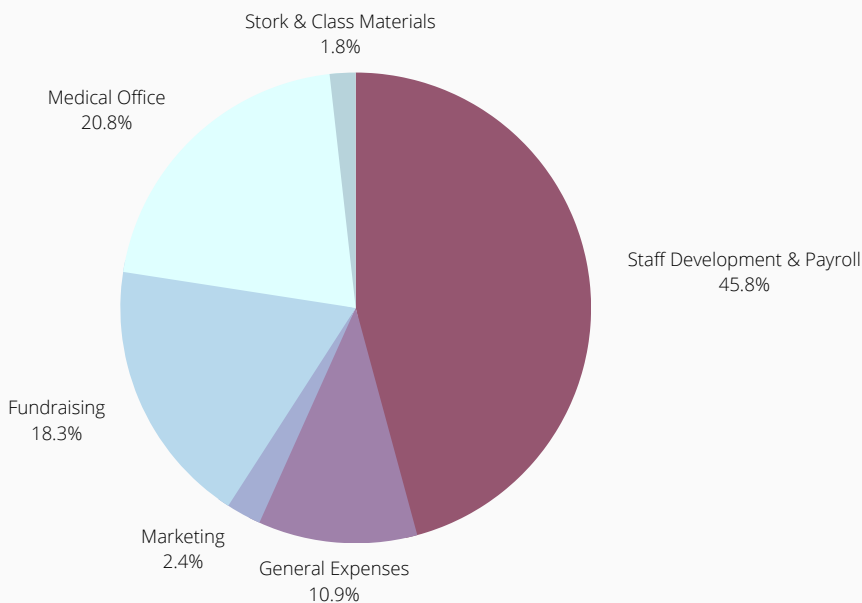

Alight's vision is to see people recognize their intrinsic value so they may embrace the lives of their children.

Our mission is to empower as many individuals as possible in Columbia, Greene, and the surrounding counties to make healthy life choices related to their sexuality and child-bearing, consistent with a culture of life.

2023 Focus

- Increase the number of abortion vulnerable/minded clients by 100%
- Present 12+ Sexual Risk Avoidance Programs at area Middle/High Schools, Church Youth Groups, Community Groups
